### WHITE, WHO MEETS WELSH JULY 5, HAS NEVER SHOWN CLASS IN A LONG BOUT

Challenger, Charley White, who will meet Champion Freddie Welsh at Denver on July 5 in a twenty-round bout for the championship of the world, has never shown class in any bout of over fifteen rounds. Less than two years ago he was virtually compelled to take the count when he attempted to whip Jack Britton over the twenty-round course at New Orleans. White has figured in about eighty-five ring contests, but he has lasted out the long distance in only two bouts and rounded out only one fifteen-lap affair.

Freddie Welsh (left) and Charlie White.

### PHALANX

Of the Macedonian Type is the  
New Tactical Method of  
the German Attack.

(Correspondence of Associated Press.)  
PETROGRAD, June 5.—For the first time in this war, the Germans in their latest advance into Russian territory, have adopted a new tactical formation for attack. The new formation is likened by military experts here to the Macedonian phalanx—with this difference, that it is composed, not of individuals but of divisions and army corps.

This phalanx, in the advance from Cracow, moved along the line of the Gdansk-Breslau railway, and included ten full army corps, of which five, forming the main striking head, were picked troops withdrawn specially for the purpose from the French front.

The phalanx was superabundantly provided with artillery, including a large number of heavy batteries. The latter were also in many cases brought across Germany from the French front. For example, twenty-

four battalions of the Prussian Guard corps had with them forty batteries, half of which were of heavy caliber.

This ancient battle formation, newly applied in modern war, had naturally been deprived of any great possibilities of tactical movement by the fact that it was chained to a line of railway, whereby alone it could maintain its supplies and munitions in the quantities required by such a huge concentration.

The rate of movement of the phalanx in a forward direction can not have exceeded four miles a day, in the opinion of Russian experts. But its momentum was irresistible, and it was the phalanx formation which forced the crossing of the San river at Lezachow. It was assisted by an immense flotilla of aeroplanes.

The Germans, in withdrawing many of their best troops from the French front, filled the gaps necessarily left there, with overpowering technical superiority. Thus, where the Germans find themselves opposed by a thousand men and two machine guns, they post a hundred men and twenty machine guns, confident that by continuing on the defensive with an extended use of the technical adjuncts of warfare they can safely withdraw their best troops for temporary service elsewhere.

Colonel Colomoff, the best known newspaper military expert in Petrograd, discusses the French position in his latest article. Pressure from two sides, he says, is an elementary principle of coalition warfare. In the fighting of the present month the Russians have drawn upon themselves enormous masses of first-grade German troops withdrawn from the West front. Naturally the French have tried to reply by putting renewed pressure upon the weakened enemy facing them. But extra rapid-fire, extra artillery, and the use of gases, are taking the place of men in the German lines on the West, and for this reason the French attempts at exerting pressure have shown no signs of relieving the Russians.

### MUSHROOM

Camps of Interned Persons in  
Great Britain Are Not Found  
in Large Numbers.

(Correspondence of Associated Press.)  
LONDON, June 5.—With the government's announcement that enemy aliens in Great Britain would be either interned or repatriated, all anti-German rioting stopped, and the public attention turned itself to other matters. With the public clamor quickly turned to other matters, and after a day or two the sudden acceleration in the internment of aliens slackened.

The military authorities are naturally reluctant to have thrust on them suddenly any larger number of internment cases than can be handled easily in the camps already established, and there has been no move to develop mushroom camps which would soon have to be condemned as unfit. It is also regarded as unwise to permit anything in the nature of overcrowding at camps already in existence. No steps are to be taken to charter additional vessels for purposes of alien internment.

So the actual fulfillment of the government's promise to intern or repatriate all enemy aliens is likely to be realized only after considerable delay. Such aliens as surrender to internment are disposed of as rapidly as possible, but there has not yet been any combining of the highways and byways, and only in exceptional cases have known Germans or Austrians been called upon to give themselves up.

A number of men and women who are within the possible scope of the internment order are being dealt with by the emergency committee for the assistance of Germans in distress. Those who have thus far sought the assistance of this committee have been mostly women, some of them British and German husbands. A number of them are people who were rendered homeless as the result of recent anti-German rioting. When these homeless ones are not immediately required for internment they are given food and lodgings in a building provided by the committee and under the nominal supervision of the police.

Tasmania imports practically all its hosiery.

### SUFFERED TO YEARS WITH HEMORRHOIDS

Caused Itching, Burning and Pain.  
Lost Sleep. Irritated and Inflamed.  
Used Cuticura. Permanent Relief  
in a Month.

Stephens City, Va.—"My father had been a chronic sufferer with hemorrhoids for ten or fifteen years. The disease, first manifested itself in the form of bleeding hemorrhoids, and later developed into tumors as large as a hen's egg. Then he would be unable to work after some unusual exertion and could get no relief sitting or lying down. His trouble caused a great deal of itching, burning and pain. He lost a great deal of sleep. The affected parts were irritated and inflamed very much.

"It was during one of his severe attacks that I suggested to him the use of Cuticura Soap and Ointment. He found much relief from the itching and burning by bathing the affected parts with warm water and Cuticura Soap. After that he would apply the Cuticura Ointment. The first application relieved him considerably and after three applications he was able to go to work. He kept up this treatment for a month and was permanently cured." (Signed) Miss Saxon Samuels, October 27, 1914.

Sample Each Free by Mail  
With 22-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

### THRILLS

Packed into the Short Voyage  
of a Ship Attacked Repeat-  
edly by a Submarine.

ROTTERDAM, June 5.—After being attacked in succession by a

Restored to Good Health.

"I was sick for four years with stomach trouble," writes Mrs. Otto Gans, Zanesville, Ohio. "I lost weight and felt so weak that I almost gave up hope of being cured. A friend told me about Chamberlain's Tablets and since using two bottles of them I have been a well woman." Obtainable everywhere.—Advertisement.

# THE NATIONAL GARDEN DEFENSE

You can save your growing plants from insect attacks—if you act in time. One bug or worm today means a million to come. Dust your fruit trees and vegetables with "Corona Dry"—now is the right time—and kill the leaf eaters before they get a good start. Don't wait until the fruit is infested and the leaves half gone. Dust now!

### "CORONA DRY"

is pure Arsenate of Lead, put up in a patented form for home use. It is the ideal method of killing leaf-eating insects on vegetables, flowers, small or large fruits, and ornamental trees and shrubs. You simply blow the dry powder over the plant with an inexpensive duster. It will not burn the foliage. Spreads rapidly and clings tight. So simple that a child can apply it successfully. Used by hundreds of the largest growers.

1 lb. Pkg. 35c.

5 lb. Pkg. \$1.50.

Zeppelin, a submarine and a German aeroplane, the Cork Steamship Company's ship, *Lestris*, has reached this port safely from Liverpool.

"There were more thrills packed into this short voyage than ever before befell seamen," declared the captain on landing. "The first part of the trip was uneventful, but as we neared the Dutch coast things began to happen. First came a Zeppelin, which attacked us before daybreak one morning, dropping twenty or thirty bombs. Considering that we carried all the regulation lights we were lucky not to be hit.

"Soon after sun-up, having lost the Zeppelin in the haze, we sighted

a submarine half a mile away. It gave chase, but we sent every man to the stockhold and steered a zigzag course, so that the submarine quit the pursuit after half an hour's hard work.

"It was a little later in the same day that an aeroplane favored us. It circled overhead several times and dropped two bombs, but its ammunition was evidently scarce, and it did not stay with us long. Neither bomb came close to us."

Java's sugar crop this year is estimated at 1,289,200 long tons. The British salt industry centers in Cheshire and Gloucestershire.

There are more than 400,000,000 people in the British empire. The British empire possesses more than 11,000 merchant ships.

As a rule, where earthquakes are most frequent they are most severe.

# OVERLAND \$750

Model 83 f. o. b. Toledo.  
This is the largest 4-cylinder O

Roadster \$725  
verland that will be produced this year.

## The Newest Overland \$325 Less Than Last Year

The 1916 Overland is essentially the same as the 1915 Overland—the famous model 80 that sold for \$1075.

But the price is \$325 less.

The stream-line body is the same as the \$1075 model of last season.

It has the same magnificent finish; that deep, rich tone of dark Brewster green with fine hair-line striping of clear

ivory-white.

It has the same powerful, economical thirty-five horsepower, four-cylinder motor, but weighs less.

It has high-tension magneto ignition.

It has the same under-slung rear springs, 33 in. by 4 in. tires, non-skid in rear. Demountable rims, with one extra.

It has the same easy-working clutch which any

woman can operate; the same "easy to handle" shifting levers; the same "easy to steer with" wheel; the same positive brakes.

It has 38 in. by 4 in. tires which is unusual on a car at this price.

In detail, finish, mechanical fitness, comforts and conveniences, this newest Overland gives you all there was in

the \$1075 Overland and even more power.

And it costs you but \$750—\$325 less than last season's large 35-horsepower Overland.

Deliveries are being made now all over the country.

Every Overland dealer already has a waiting list.

Place your order immediately and you can be sure of a speedy delivery.
